## Whitney Release New Single/Video, “[Used To Be Lonely](#)”

***Forever Turned Around Due August 30th Via Secretly Canadian***

“Even without knowing what [“Valleys (My Love)”] is about, you’ll hear the melancholy in every lilting horn or plucked string. It’s the kind of track that you can play for anyone, anywhere, but it’ll still make everyone stop what they’re doing and get reflective.” - *Vulture*

“Valleys (My Love)’...pairs Ehrlich’s sweet falsetto with some truly pristine soft-rock orchestration. I’m talking ’70s sitcom opening theme song quality. I’m smitten.” - *Stereogum*

“[“Valleys (My Love)’] might be Whitney’s most panoramic yet...” - *Paste*

**Whitney** - the Chicago-based band led by vocalist/drummer **Julien Ehrlich** and guitarist **Max Kakacek** - shares a new single/video, “**Used To Be Lonely**,” from their forthcoming album, ***Forever Turned Around***, out **August 30th** via **Secretly Canadian**. It follows the previously released singles, “**Valleys (My Love)**” and “**Giving Up**.” “Used To Be Lonely” tackles the blissful confusion that comes from seeing the way things unexpectedly change over time. The accompanying video, directed by **Austin Vesely**, is Chicago-centric, featuring notable places throughout the city like the Music Box Theatre and Lake Michigan shoreline.

*Forever Turned Around* is an album about partnership — romantic, familial and communal, but most importantly a love in friendship: the bonds between two best friends and creative partners and the joy and stress that comes with it. The album was co-produced by **Brad Cook** (Bon Iver, Hand Habits) and **Jonathan Rado** (Weyes Blood, Father John Misty), who produced their much-beloved debut, 2016’s ***Light Upon The Lake***, and features Chicago musicians **Lia Kohl** and **OHMME**’s **Macie Stewart**.

Whitney are in the midst of a European tour. Upon their return to the states, they will embark on a lengthy North American leg, where they’ll play **four hometown shows at Thalia Hall**. All tickets are on sale now and all dates can be found below
