Last month, British musician **Bill Fay** released his "tender and forgiving and wonderstruck" (*Pitchfork*) new album, ***Countless Branches***, on **Dead Oceans**. Today, he presents a video for one of its tracks, “**In Human Hands**.” The video, directed by **Julia** and **Mike McCoy**, is entirely animated. It paints a poignant backdrop to a song that deals with the detrimental and divisive effect human hands can have on the world.

Sounding more sparse and succinct than his previous records, *Countless Branches* collects compositions drawn from the trove of material Fay has

amassed over 40 years. Unfinished songs emerge with newly written words and melodies on Fay's recurring themes - nature, the family of man, the cycle of life and the ineffable vastness of it all - as if they had been lying in wait to find their place in our current zeitgeist. The resulting ten songs are as pointed and affected as anything he has ever recorded.
